Systems Integration  
Technical Staffing

## People Powered Technology

PeoplePlus Software provides an umbrella of business solutions for Integrated Supply Chain Management, Supplier Portal & Vendor Management, E-Commerce, E-Purchasing (EDI), and Preventative Maintenance, as well as a range of technology-based services. First and foremost, we are a firm that believes in our people as strongly as we do our technology. Our people possess the skills and experience to get our systems running efficiently and effectively through best-in-class processes and practices. It is this combination of leading software with dedicated people that provide truly successful solutions to our clients.

We do not simply sell a piece of software and walk away. We are focused on delivering a total solution to your needs. With that in mind, we include professional services as an integral part of every solution, such as process consulting, systems training, data transfer, software integration and on-going support. Our ability to execute those parts of the business effectively frees our clients to focus on the operation of their core business.

All of our packaged solutions are Cloud-based applications available in Software as a Service (SaaS) distribution model. Our clients do not need to purchase or install any specialized hardware or software. All that is needed is an Internet connection and our powerful business solutions are immediately available anywhere in the world.

## iM3 technology powered by Microsoft Azure

Our iM3 integration platform has been proven to effectively and successfully provide business integration for a wide range of companies. Our clients have seen increased revenues, significantly reduced IT expenses, and improved customer and partner satisfaction. The iM3 Suite offers:

### Integrated Supply Chain Management

- Purchasing
- Vendor Management
- Inventory Control
- Invoicing
- Manufacturing Repairs & Installation
- Warehouse Management
- Mobile App
- Scanning & Barcode

### Customer, Supplier/ Vendor Portal

- 360 Degree Inventory View
- Connect and Collaborate with Dealers, Distributors, Suppliers & Stakeholders
- Catalog of Purchased Inventory
- Sales Order Management
- Customer Management
- Ecommerce

### Operations Management

- Supports Management Best Practices
- Proactive Tools to Improve Operations
- Business Intelligence, Big Data
- EDI, API & Data Integration
- Integrates with Leading ERP Systems
- Accessible from any Browser-Enabled Device

### Assets & Facilities Management

- Asset Specification, Costing, & Tracking
- Preventative Maintenance
- Vendor Contracts
- Maintenance & Warranty Management

- **Minimizes cost and risk:** Minimal up-front investment and no additional hardware or software costs, with a pay-as-you-go subscription model.
- **Increases ROI of existing IT investments:** Leverage existing systems and applications, so companies have no upgrade requirements.
- **Improves competitiveness and revenue:** Provides the tools and access partners need to do business together in order to improve customer service and sales.

## The History of PeoplePlus Software

PeoplePlus Software Inc., was founded in 2007 and is headquartered in Ann Arbor, Michigan with affiliated offices in Ohio, Texas, Canada, and India. PeoplePlus was founded based on the principle of bringing world-class software solutions to small and growing business by using the power of the Cloud. Our approach to SCM automation has been honed by years of experience with the University of Michigan Central Procurement, as well as Automotive OEMs and their Suppliers. We have a passion for leading edge technology and pride ourselves in crafting robust, practical solutions to our clients' needs.

## Client Testimonials

### EWIE

*"EWIE's management is very pleased with the successful implementation of iM3 Cloud in a cloud environment, its continued use by our teams located at various locations across USA and the performance of the PeoplePlus Software team."*

— Manoj Sachdeva, Co-Owner

### Roush Fenway Racing

*"The scheduling program developed by PeoplePlus that we use for our show car program is excellent... We are more efficient, have better tracking capabilities, and the program is easy to use for our fleet drivers, schedulers and customers."*

— Nancy Ryder, Director Event Marketing
