Dealer/Shop Management • Repairs • Warranty Tracking  
Preventive Maintenance • Fleet Service • Rental & Leasing

The SCM Cloud Suite

[im3scm.com](http://im3scm.com)

**Innovative software solutions  
to improve efficiency &  
increase profitability**

## Solving the challenges of the transportation equipment industry:

Our iM3 SCM Suite delivers complete functionality to meet the challenges faced by the transportation equipment industry, including **reefers, trailers, mechanical services, body shop services, APU's, tankers, retrofits, installations & fabrications, heavy construction equipment and equipment leasing.**

The software solutions provided are immediately available and fully integrated to help you to make more informed decisions and operate more efficiently. Our team of experts can work with you to develop a solution that supports your business and budget.

As a cloud-based solution, iM3 can be implemented without significant investments in IT equipment or staffing. All information is automatically updated and accessible anywhere through any Internet-enabled device. iM3's Mobile APP delivers one-click convenience for a variety of features. iM3 customers benefit from significantly improved cash flow, increased accuracy and timeliness of invoicing, tighter control over inventory, reduced inventory cost and real-time repair work orders. As a highly customizable solution, iM3 supports your entire operation, including:

- Accessing and managing work orders
- Viewing equipment repair history
- Capturing authorization signatures on quotes, work orders and invoices
- Bar code/QR code, mobile app and scanning solutions
- Service contract and warranty management
- Dual invoicing for OEM warranties
- Multiple labor rates and service types
- DOT inspection templates
- Scheduled and preventive maintenance
- Rental & Leasing
- Inventory & warehouse management
- And much more

**Our team of experts**  
will work with you to customize and  
implement a solution that supports  
your business and budget
